## Market Reports Service

- How do you currently monitor your company's performance?
- How difficult is it to get exactly the information you need, in the format you want, how you want?
- How much time and effort could you save if this work was done for you to your own specification?

The London Stock Exchange's new Market Reports Service can assist you with these tasks. The Service has been designed to meet the information needs of senior managers of publicly listed companies by delivering key performance indicators straight to your desktop.

## What the Market Reports Service offers you

The Market Reports Service provides a daily report focusing on the market dynamics and trading activity of your company and its peers which can be used to:

- enhance board reports with concise, consolidated performance data
- provide management with timely updates to information impacting your company's share price
- reduce data costs and the time spent consolidating this type of data.

The Market Reports Service allows analysis of the performance of your company and its peers by providing the following information in an easy to interpret end of day report:

### Share Price Performance

- intraday open, high, low and closing prices
- 5 years' historic closing prices
- peers and indices tracking for comparison and rebasing purposes.

### News & Trading Activity Analysis

- intraday RNS announcements plus 2 years history
- share price & volume impact analysis of news events.

### Share Ownership Data - Sourced from Argus Vickers

- share register analysis to an ownership threshold of 0.05%, updated monthly or quarterly
- peer comparison reports.

### Broker Forecasts - Sourced from JCF Group

- recommendations & forecasts: EPS, EBIT, EBITDA, DPS, Sales, Pre-Tax Profit, Net Debt
- consensus level and individual broker estimates for 2 years future performance.

The service enables you to design your own reports using the above information sets. Many different options are available for you to customise the content of your reports in a way that best suits you.

## Product Features

- **Data consolidation** - provides all relevant information in one place
- **Flexibility** - configure reports to display those market indicators you value the most and view the information in the way you want
- **Convenience** - data is automatically formatted into an attractive report which is emailed to you at the end of the business day
- **Peer comparisons** - view and analyse direct comparisons between your company and competitors for pricing and ownership data.

**For a free trial, a sample report on your company, or to subscribe to the Market Reports Service, please call on +44 (0)20 7797 3068.**
