Oslo, 20th April 2006

EXCHANGE NOTICE DERIVATIVES 26-06

REGARDING OBX – SPLIT AND DIVIDEND ADJUSTMENT

Attached are the new ISIN and series designations for adjusted OBX options and futures, see exchange notice 22-06 for more information.

4:1 Split

Effective from and including 21st April – which is the day after expiration in April – the OBX will be split 4:1. This means that OBX values will be reduced to a fourth. Consequently, OBX options and futures expiring in May and June will be adjusted by dividing strike and futures prices by four and multiplying number of contracts by four. The OBX multiplier will be unadjusted. The adjusted futures and option series will be assigned new ISIN and marked with the letter X for deviating contract specifications.

New series designations and ISIN

New ISIN and series designations for adjusted OBX options and futures are attached below.

Any questions regarding this Exchange Notice can be directed to Are Grongstad.

Sincerely
OSLO BØRS ASA
