Adjustment due to Electrolux's share redemption

Electrolux will carry out a redemption, whereby shareholders receive one redemption share for every Electrolux share held. The redemption share will be subject to compulsory redemption for a cash payment of SEK 20.00. The record date is 5 January 2007. EDX London has carried out a recalculation of options and forwards in Electrolux and adjusted the OMXS30 Index as below.

Recalculation of options and forwards

Conditions	Every redemption share will be compulsorily redeemed for a cash payment of SEK 20.00
Ex-date	3 January 2007
Adjustment factor ¹	$A = \frac{VWAP_{cum} - b}{VWAP_{cum}} = 0,8534736$
New exercise and forward price	Old exercise and forward price * A
New contract size	Old contract size / A
Date of recalculation	After 19.30 (CET), 2 January 2007
EDX London Rules and Regulations for Derivatives	EDX.4.1.21.4.9(1)

¹ VWAP_{cum} = volume weighted average price at the day before ex-day (8 decimals are used)

b = cash payment for redemption share

As a result of the adjustment the number of shares per contract has increased to 117 after rounding down to nearest full share, whereas exercise and forward prices have decreased. New exercise and forward prices have been rounded off to two decimal places and received an "X" in the series designation. The series have also received new ISIN codes which are published below. The rounding off of forward prices was made "trade by trade" and not on the net position.

Adjustment of the OMX Stockholm 30 Index

EDX London will, assuming the Annual General Meeting consents to the proposal of the redemption, carry out an adjustment of the OMXS30 index according to EDX London's Rules and Regulations for Derivatives Paragraph 4.2 in the Appendix to Part EDX.4.2.

Adjustment

2 January 2007	ELUX ser. B is included in OMXS30 Index with a running average price calculated during the day.
3 January 2007	ELUX ser. B is included in OMXS30 Index with a fixed price during the day. The fixed price is the average price from January 2 2007 and has been established to 136.49413757. The average price for the ex-day will be calculated.
4 January 2007	The start value applied for ELUX ser. B will be the established average price of the ex-day. ELUX ser. B is included in OMXS30 Index with this value until the first transaction is registered on Stockholm Stock Exchange. Thereafter, the calculation is based on continuous last paid prices.

Further Information
