

EDX London Limited

Exchange Notice 2009/131

Swedish and Danish Product Notice

Reactivation of hidden volume orders for futures based on OMXS30, OMXSB and OMXC20 indices

With effect from 22 September 2009, Hidden volume orders will be enabled for futures based on OMXS30TM, OMXSBTM and OMXC20TM indices.

On 10 June 2009 Hidden volume orders were temporarily disabled for the above mentioned futures due to a mismatch in the dissemination of bid and ask prices after the allocation of trades from the closing call auction. This issue has now been resolved. The correction does not require member and 3rd party application testing/verification.
