Introduction

This document contains details of London Stock Exchange plc fees for both United Kingdom incorporated ('UK') companies and overseas incorporated ('International') companies admitting securities to trading on the following London Stock Exchange markets: the **Main Market**, **Professional Securities Market** and **International Securities Market**. The fees are also payable for securities that are admitted to trading via an EU competent authority passport and any other securities that are admitted to trading without seeking admission to the Official List.

This document also contains a summary of admission and annual fees payable by **AIM** companies (see page 15). The full AIM fees for companies and nominated advisers brochure is available at: www.londonstockexchange.com/aim-fees.

Admission fees¹ are payable on all applications for securities to be admitted to trading on any of London Stock Exchange's markets. An invoice for the admission fee will be raised at that time. Payment of admission fees must be received **no later than 30 days after the date of such invoice**. In the case of equity issues admitted to the Main Market, the Professional Securities Market or admitted to trading without seeking admission to the Official List, the same fee scale is applied for admission fees – for new companies **joining the market** and for **further issues of securities** by companies already admitted, based on the market capitalisation of those securities at admission. Companies subject to a **reverse takeover** pay admission fees according to the new company scale. For AIM admission fees, there are two separate fee scales, one for new companies **joining the market** and the other for **further issues of securities** by companies already admitted, based on the market capitalisation of those securities at admission. The Main Market includes the following segments: i) securities admitted to the Official List, ii) the Specialist Fund Segment and iii) the High Growth Segment. An admission fee is payable for transfer between these three segments. In the event of an application being made where more than one line of security is being admitted, a separate fee will be charged for each class of security. A transfer of existing shares from Admission to Trading (ATT) to the Main Market may be eligible for a discount on the admission fee. If the transfer is made within 3 months of being admitted to ATT, a 75% discount applies. If the transfer is made between 3 and 12 months, a 50% discount applies. Transfers made after 12 months are not entitled to a discount.

For rights issues the market capitalisation is based on the issue price available from the prospectus. Each issuer is entitled to a maximum of 12 applications per calendar year. This number is pro-rated to 9 for the transition period², to reflect the change in the billing cycle, returning to 12 from January 2020.

In 2019, the London Stock Exchange will begin the transition of changing the annual fee billing cycle for Equity Securities. From 1 January 2020, annual fees for Equity Securities will be billed for the calendar year (January – December), moving away from the current fiscal billing cycle (April – March). For the transition period, the 2019 billing cycle for Equity Securities will be adapted to 9 months (April – December), therefore the fee will be calculated as $\frac{3}{4}$ of the full annual fee.

Annual fees are payable by all companies that have either equity securities or certificates representing shares admitted to trading, and by issuers of all Exchange Traded Funds and Exchange Traded Commodities. Annual fees are billed for:

- Equity securities or certificates representing shares, in April 2019 for the 9 months April - December, to reflect the change in the billing cycle. From January 2020, annual fees will be charged for the 12 months commencing 1 January;
- Exchange Traded Funds and Exchange Traded Products, in January for 12 months commencing 1 January.

Annual fees are to be paid by Direct Debit where possible. A pro-rata portion of the annual fee is payable by all issuers of equity securities and certificates representing shares when commencing trading on the London Stock Exchange for the first time part way through the year. For equity securities, during the transition period⁵, a pro-rata portion of the annual fee will be based on the period April – December, reflecting the change in the billing cycle. From 2020, the pro-rata portion will be based on the calendar year (January – December). No additional pro-rata annual fee is payable for companies transferring between markets.

The annual fee is for each year or part thereof and is therefore not refundable, including where securities cease to be traded. The minimum annual fee is payable by suspended issuers where applicable.

No additional annual fee is payable by a company admitted to trading as a result of a reverse takeover or a readmission.

Definitions of terms used in this publication are included in London Stock Exchange's Admission and Disclosure Standards and the AIM Rules for Companies.

Calculating market capitalisation for admission fees

Equity securities (including certificates representing shares)

Multiply the total number of securities for which application(s) is being made by the opening price⁷ on the day of admission.

Fixed income, floating rate securities and international debt securities

As stated on the face value of security.

Exchange rates

For securities denominated in a currency other than pounds sterling, the market capitalisation must be converted into pounds sterling at the exchange rate printed in the edition of the Financial Times 'FT guide to world currencies', published on the Monday immediately preceding the date of admission. The rate advised in this edition will be used for all currency conversions during that week.

⁷ The opening price is the first price at which the uncross takes place. Should the first uncross price not be available, then the mid-price of the best bid-ask on the first day will be used. In instances whereby neither of the aforementioned are available, London Stock Exchange will use the last price (if available).

Admission and further issues fees – UK and international companies (including investment entities)⁸

Equity securities – ordinary shares, common stock

New issues

Issuers of equity securities must pay a fee for admission of their securities to trading on the London Stock Exchange.

To determine the admission fee:

- locate the market capitalisation band of the securities to be admitted in column (a)
- multiply any additional amount over the 'greater than' figure by the corresponding figure in column (b)
- add the result of this calculation to the maximum fee in the **previous** market capitalisation band in column (c).

In the event of an application being made whereby more than one class of security is being admitted, a separate fee will be charged for each class of security.⁹

Market Capitalisation (£m)		Increment per £m	Cumulative maximum fee (£)
Greater than or equal to (a)	Less than	(b)	(c)
0	5	Minimum fee	11,500

		Maximum fee	595,000

VAT, currently at 20 per cent, must be added to the fee derived for issuers where applicable.

Further issues

Further issues will be charged according to the above scale. No further issue fee will be payable for issuers capitalised below £100m which at the time of issue are raising less than £100,000.

Note: Preference shares may be treated as either equity or debt securities. Classification is dependent upon the class used by the relevant competent authority for the issuer. The admission fee will be based upon this classification. In both cases, an admission fee will apply; however, no annual fee will be payable.

Annual fees - UK and international companies¹¹

Equity securities – ordinary shares, common stock

To determine the annual fee:

- round up the market capitalisation to the nearest £1 million
- multiply the market capitalisation value (£m) by the corresponding figure in column (b)
- the minimum and maximum fee payable by an issuer are reported in column (a) and column (c) respectively.

Minimum fee (£)	Increment per £m	Maximum fee (£)

^{††} The maximum annual fee payable by new applicants admitting their equity securities from 1 April 2019 and those existing issuers participating in the London Shanghai Stock Connect programme¹².

A premium listed issuer will be eligible for a 15% discount on their annual fee for the parent listed entity, should they have five or more premium funds listed on London Stock Exchange¹³.

 - Starting from January 2020, the divisor will return to 365 (366 during leap year).
- Where admission to trading occurs after 30 November 2018, the market capitalisation used in the above calculation is the market capitalisation of the securities at the time of admission¹⁵.

Note: Preference shares may be treated as either equity or debt securities. Classification is dependent upon the class used by the relevant competent authority for the issuer. In both cases, an admission fee will apply; however, no annual fee will be payable.

¹¹ Not applicable to AIM – for AIM company fees, please see Page 15.

¹² If an existing London Stock Exchange issuer joins the London Shanghai Stock Connect programme after 1 April 2019, the Stock Connect component of the annual fee will be calculated as the difference between the 2019 Stock Connect programme annual fee and the issuer's April 2019 annual fee, which is then pro-rated based on the remaining months of the transition period.

¹³ Please note that the discount does not apply to listed funds.

Admission Fees

Admission fees	Fee
Individual security	£6,000
Daily cap where up to 10 securities are admitted on the same day	£30,000
Each additional security in excess of 10 on the same day	£2,000

- If an ETF, ETC or ETN is already admitted to trading on one of London Stock Exchange Group markets (London Stock Exchange and Borsa Italiana), the issuer receives a 15% discount on the standard admission fee when the security is admitted to trading on the other London Stock Exchange Group market.
- If an ETF, ETC or ETN is admitted to trading on both the London Stock Exchange and Borsa Italiana on the same day, the issuer will receive a 7.5% discount on the admission fee on both exchanges.
- The cross-listing discount is not applied to ETFs admitted to the EOTC (trade reporting only) sector of the London Stock Exchange.

For example, if an issuer lists 13 ETFs, ETCs or ETNs on London Stock Exchange on the same day, and 2 of these are already admitted to trading on Borsa Italiana, the cross discount will be calculated as follows:

- Admission Fee: £30,000 (daily cap where up to 10 securities admitted on the same day) + £6,000 (3 * £2,000; each additional security in excess of 10 on the same day) = £36,000
- Cross Discount: £36,000 * 2/13 * -15% = -£830.77
- Admission Fee net of Cross Discount: £36,000 - £830.77 = £35,169.23

New Issuers

Fees for admission of securities by new issuers will have a cap of £30,000 where up to 10 securities are admitted within the calendar month of becoming an ETF/ETP issuer on the London Stock Exchange.

Annual fees

Annual fees are payable by issuers on each individual ETF and ETP admitted to trading on the London Stock Exchange's Main Market, excluding multi-currency lines. Annual fees are based on the market capitalisation of each fund at close of trading on the last business day of November in the preceding year.

Annual fees are applicable for each financial year (Jan-Dec) or part thereof. It is therefore not refundable where a security ceases to be traded during a chargeable period. In the financial year of admission, £1,500 will be charged on a pro-rata basis based on the month of admission; thereafter the fees table below will apply.

Annual fees for ETFs and ETPs are based on market capitalisation of the ETF and ETP

Market Capitalisation		Fee
Lower Band (£)	Upper Band (£)	
0	99,999,999	£1,500
100,000,000	749,999,999	£3,360
750,000,000	1,499,999,999	£8,960
1,500,000,000	and over	£16,800

Market cap of ETFs and ETPs are calculated as the Net Asset Value (NAV) per share, multiplied by the number of shares outstanding.

Annual fees for ETFs and ETPs can qualify for a discount depending on the number of ETFs and ETPs listed by the issuer, as follows:

Number of ETFs/ETCs/ETNs	Discount*
First 0 – 50	0%
Next 51 – 100	10%
Next 101 or more	15%

* The discount is calculated on an incremental basis by reference to the number of ETFs and ETPs the issuer has in each band. For example, the discount for an issuer with 200 ETFs/ETPs is calculated as follows:

$$(50 * 0\% + 50 * 10\% + 100 * 15\%)/200=10\%$$

ETFs and ETPs listed both on the Main Market of the London Stock Exchange and on the ETFplus of Borsa Italiana, as identified by the same ISIN code, will receive a further 7.5% discount on the already discounted amount.

Annual fees are not payable in respect of ETFs admitted to the EOTC (trade reporting only) sector.
