

Transfers of equity shares between listing categories

The **Main Market** is the London Stock Exchange's flagship market for large, established companies and our **regulated market for listed securities**. Issuers of securities admitted to trading on the Main Market are also admitted to the UK Listing Authority's Official List. There are two listing segments - Premium and Standard Listing and several securities categories available to issuers on the Main Market.

Companies may transfer the listing of their equity shares from one listing segment to another without the need for cancellation and a new prospectus. Such transfers may be for a number of reasons, including issuers seeking exposure to different types of investors or gaining access to certain indices. The table below outlines key procedures for such transfers. Please refer to LR5 of the FSA Handbook for further details.
