Price List – Effective 1st January 2026

5 Notes for Exchange Hosting London Fees

¹Trading Participant means an entity completing trading activities on the Exchange Group Markets.

²On completing the minimum term, Customer has the option to sign-up to a further minimum term or automatically transition to a 12-month renewal term.

³High user Cabinet charges pricing means a Trading Participant who subscribes to multiple Cabinets in the Exchange Hosting facility in London for the operation and management of their own trading applications and strategies.

⁴Non-Trading Participant means an entity that does not create trading orders themselves but may facilitate certain Trading Participants to complete their activities or provide access to Market Data. The term "Non-TradingParticipant" may also be applicable to Trading Participants with respect to the non-trading activities they may be permitted to perform, such as redistribution of Market Data. Fees exclude Network Service Provider (NSP) or Vendor Access Network (VAN) Fees.

⁵Excess Power Use means power used by the Customer for a Service, in excess of the threshold subscribed to by the Customer in the relevant Service Order. An Excess Power Use Charge is payable by the Customer for each calendar month the Customer has Excess Power Use. If the Customer has Excess Power Use for three months in any rolling twelve month period, the Exchange may upgrade the Customer to an increased power capacity, and the corresponding pricing will be payable by the Customer, effective from the date of the Exchange's notice advising the Customer of such upgrade, as if the Customer had selected the higher tier in the Service Order. Any delay or lack of action by the Exchange will not be a waiver of this right.

⁶The caged suite fee is in addition to the Cabinet licence fees, and the caged suite option is only available on Level One of the Data Centre and for Cabinet pods as follows:

- the minimum initial subscription for a single sized caged suite is 10x 5kW Cabinets, increasing to 12x 5kW on the first anniversary of the subscription.
- the minimum initial subscription for a double sized caged suite is 20x 5kW Cabinets, increasing to 24x 5kW on the first anniversary of the subscription.

⁷The Cabinet Installation Fee will be applied per Service Order not per cabinet ordered. Only one Cabinet Installation Fee will be charged per Service Order.

⁸Additional market connectivity switch ports provide Customer with additional allocation of resilient Multicast and Unicast switch to switch connections on the prevailing network bandwidth option(s).

⁹Non-Trading participants requiring cross-connects to any other party, except Carriers, must install dual, resilient connections. Trading Participants are only required to install single non-resilient connections.

¹⁰The Exchange Hosting 1Mb VPN connectivity is provided as an emergency or back-up connection and should not form a core part of a customer's network. The connection is not managed and is subject to availability.

¹¹Expedited Remote Hands tasks are activities that are requested to be completed with less than the standard 24-hour notice period. Where possible the Exchange will complete these tasks subject to resource availability and other submitted tasks.

¹²The Minimum Service Terms for the Service Line Items are

- Active Cabinet Licence / Power – 12mths or 24months as per the relevant Service Order;
- Reserve Cabinet – 12months
- Market Access Port Connectivity – 12months
- Time Feed Services – 12months
- Telco Carrier Cross-connect – 3months
- Inter-Participant Cross-connect – 3months

¹³The standard power offering to each customer cabinet is single-phase. Customers have the option to upgrade to three-phase power in all or specific cabinets within their footprint. The provision of three-phase power is subject to availability. Where three-phase power is installed, this will replace the single-phase power outlets.

¹⁴Pricing referred to under '2 Year' is the discounted pricing applicable for customers on 24-month Service Terms (initial and renewal).

Exchange Hosting Service - London

Price List – Effective 1st January 2026

All Charges exclude Value Added Tax or any other similar tax or levy which may be payable thereon. Such taxes or levies will be added to the Exchange's invoice as appropriate, at the rate prescribed by legislation.
