Introduction

This document contains details of London Stock Exchange plc fees for both United Kingdom incorporated ('UK') companies and overseas incorporated ('international') companies admitting securities to trading on the following London Stock Exchange markets: the Main Market, Professional Securities Market and International Securities Market. The fees are also payable for securities that are admitted to trading via an EU competent authority passport and any other securities that are admitted to trading without seeking admission to the Official List.

This document should be read in conjunction with the [Admission and Disclosure Standards](#).

This document also contains a summary of admission and annual fees payable by **AIM** companies (see page 15). The full AIM fees for companies and nominated advisers brochure is available at:

<https://www.londonstockexchange.com/resources/raise-finance-resources?tab=aim>.

Admission fees¹ are payable on all applications for securities to be admitted to trading on any of London Stock Exchange's markets. An invoice for the admission fee will be raised at that time. Payment of admission fees must be received no later than 30 days after the date of such invoice. In the case of equity issues admitted to the Main Market, the Professional Securities Market or admitted to trading without seeking admission to the Official List, the same fee scale is applied for admission fees – for new companies joining the market and for further issues of securities by companies already admitted, based on the market capitalisation of those securities at admission. Companies subject to a reverse takeover pay admission fees according to the new company scale. For AIM admission fees, there are two separate fee scales, one for new companies joining the market and the other for further issues of securities by companies already admitted, based on the market capitalisation of those securities at admission. The Main Market includes the following segments: i) securities admitted to the Official List, and ii) the Specialist Fund Segment. An admission fee is payable for transfer between these three segments. In the event of an application being made where more than one line of security is being admitted, a separate fee will be charged for each class of security, according to the relevant schedule. A transfer of existing shares from Admission to Trading (ATT)² to the Main Market may be eligible for a discount on the admission fee. If the transfer is made within three months of being admitted to ATT, a 75% discount applies. If the transfer is made between three and 12 months, a 50% discount applies. Transfers made after 12 months are not entitled to a discount.

Admission fees are not refundable, including where securities cease to be traded. For rights issues the market capitalisation is based on the issue price available from the prospectus.

Non-chargeable applications

The following is a list of non-chargeable transactions for companies admitted to the Main Market, the Professional Securities Market or otherwise admitting to trading:

- Capital reorganisation
- Sub-division of capital
- Consolidation of capital
- Redenomination of capital
- Capitalisation of reserves
- The reclassification of shares in order to liquidate a company under a scheme for reconstruction
- Block listings for issue of shares under employee share schemes with market capitalisation below £2 million ^{3,4}

- Further issues of shares issued under an existing offer for subscription

² ATT is defined in London Stock Exchange's [Admission and Disclosure Standards](#)

³ Not applicable to AIM

⁴ A cumulative total of 12 transactions per calendar year are non-chargeable, beyond which it is charged as a Further Issue

Annual fees are payable by all companies that have either equity securities or certificates representing shares admitted to trading, and by issuers of all exchange traded funds (ETFs) and exchange traded commodities (ETCs). Annual fees are billed for:

- Equity securities or certificates representing shares, in January 2027 for 12 calendar months commencing 1 January to 31 December
- ETFs and exchange traded products (ETPs), in January 2027 for 12 calendar months commencing 1 January to 31 December

Annual fees are to be paid by Direct Debit where possible. A pro-rata portion of the annual fee is payable by all issuers of equity securities and certificates representing shares when commencing trading on London Stock Exchange for the first time part way through the year. From 1 January 2021, the pro-rata portion is based on the calendar year (January – December). No additional pro-rata annual fee is payable for companies transferring between London Stock Exchange markets.

The annual fee is for each year or part thereof and is therefore not refundable, including where securities cease to be traded. The minimum annual fee is payable by suspended issuers where applicable.

No additional annual fee is payable by a company admitted to trading as a result of a reverse takeover or a readmission.

Definitions of terms used in this publication are included in London Stock Exchange's Admission and Disclosure Standards and the AIM Rules for Companies.

Calculating market capitalisation for admission fees

Equity securities (including certificates representing shares)

Multiply the total number of securities for which application(s) is being made by the opening price⁵ on the day of admission.

Fixed income, floating rate securities and international debt securities

As stated on the face value of security.

Exchange rates

For securities denominated in a currency other than pounds sterling, the market capitalisation must be converted into pounds sterling at the DataScope Select end-of-day exchange rate for the business day immediately preceding the date of admission.

⁵ The opening price is the first price at which the uncross takes place. Should the first uncross price not be available, then the mid-price of the best bid-ask on the first day will be used. In instances whereby neither of the aforementioned are available, London Stock Exchange will use the last price (if available).

Admission and further issues fees – UK and international companies (including investment entities)⁶

Equity securities – ordinary shares, common stock

New issues

Issuers of equity securities must pay a fee for admission of their securities to trading on the London Stock Exchange.

To determine the admission fee:

- Locate the market capitalisation band of the securities to be admitted in column (a)
- Multiply any additional amount over the 'greater than or equal to' figure by the corresponding figure in column (b)
- Add the result of this calculation to the maximum fee in the **previous** market capitalisation band in column (c)

In the event of an application being made whereby more than one class of security is being admitted, a separate fee will be charged for each class of security.⁷

Annual fees – UK and international companies¹⁰

Equity securities – ordinary shares, common stock

Issuers of equity securities must pay an annual fee for securities admitted to trading on the London Stock Exchange. Annual fees are based on the market capitalisation of the issuer at close of trading on the last business day of September in the preceding year on the London Stock Exchange.

To determine the annual fee:

- Round up the market capitalisation to the nearest £1 million
- Multiply the market capitalisation value (£m) by the corresponding figure in column (b)
- The minimum and maximum fee payable by an issuer are reported in column (a) and column (c) respectively

Minimum fee (£)	Increment per £m	Maximum fee (£)
(a)	(b)	(c)
12,500	64	285,000 [†]

[†] The maximum annual fee payable by applicants who admitted their equity securities and those existing issuers participating in the London Stock Connect programme¹¹.

An issuer will be eligible for a 33.33% discount on their annual fee for the parent listed entity, should they have five or more funds listed on London Stock Exchange¹².

VAT, currently at 20%, must be added to the fee derived for issuers where applicable.

- Annual fees are billed in January for the 12 calendar months commencing 1 January to 31 December and **must be paid within 30 days of the invoice date**.
- A pro-rata annual fee is payable by new applicants. To obtain the fee, take the number of calendar days, including the date of admission to trading up to and including 31 December, divide this number by 365 (366 during a leap year) and multiply the quotient by the annual fee calculated.
- Where admission to trading occurs after the last business day of September of the preceding year, the market capitalisation used in the above calculation is the market capitalisation of the securities at the time of admission¹³.

Note: Preference shares may be treated as either equity or debt securities. Classification is dependent upon the class used by the relevant competent authority for the issuer. In both cases, an admission fee will apply; however, no annual fee will be payable.

¹⁰ Not applicable to AIM – for AIM company fees, please see page 15

¹¹ If an existing London Stock Exchange issuer joins the London Stock Connect programme after 1 January 2027, the Stock Connect component of the annual fee will be calculated as the difference between the 2027 Stock Connect programme annual fee and the issuer's January 2027 annual fee, which is then pro-rated for the remaining months of the annual fee billing cycle (January – December).

¹² Please note that the discount does not apply to listed funds.

¹³ The opening price is the first price at which the uncross takes place. Should the first uncross price not be available, then the mid-price of the best bid-ask on the first day will be used. In instances whereby neither of the aforementioned are available, London Stock Exchange will use the last price (if available).

- Where admission to trading occurs after the last business day of September of the preceding year, the market capitalisation used in the above calculation is the market capitalisation of the securities at the time of admission¹⁵.

To determine the admission fee:

- Locate the market capitalisation band of the securities to be admitted in column (a)
- Multiply any additional amount over the 'greater than or equal to' figure by the corresponding figure in column (b)

¹⁸ The opening price is the first price at which the uncross takes place. Should the first uncross price not be available, then the mid-price of the best bid-ask on the first day will be used.
