APPLYING FOR THE LONDON STOCK EXCHANGE'S GREEN ECONOMY MARK

October 2025

Attaining the Green Economy Mark

The Green Economy Mark is provided to London-listed companies and funds that generate 50% or more of their total annual revenues from products and services that contribute to the global green economy. For pre-revenue issuers, 100% of their business activity must relate to product and services that enable a net positive environmental benefit.

The underlying methodology is the LSEG Data & Analytics (D&A) Green Revenues Classification System. The classification system identifies green products and services across the whole value chain covering 10 green sectors, 64 subsectors and 133 micro sectors. More information on the GRCS can be found [here](#).

Application Process

If you are an existing issuer or a company planning to list on the London Stock Exchange, you can follow the steps outlined below to apply for the Green Economy Mark. Existing Issuers may make an application for their securities to be provided with the Green Economy Mark at any point in the year. An issuer may also apply for the provision of the Green Economy Mark ahead of admission to either the Main Market or the Alternative Investment Market (AIM), both operated by the London Stock Exchange. If the Green Economy Mark is provided to a company on admission, the company will be provided with the appropriate wording to be used as part of the pre-IPO marketing and are then provided with a marketing pack following their admission. Please note, the Green Economy Mark is only officially provided once the issuer's securities have been admitted to the Main Market or AIM. The trademark itself cannot be used in pre-IPO marketing or the admission document.

Application and Consultation

1. Companies should review the GRCS to map revenues from the products and services classified under Tier 1 and Tier 2 micro sectors of the GRCS.

Please note that revenues derived from Tier 3 sub-sectors do not meet the criteria.

2. Using the form below, provide preliminary company information, a breakdown of green revenues, and evidence of the relevant publicly disclosed information. Financial information should be from the most recent review period.
3. Submit the signed Application form in pdf format to the London Stock Exchange to sustainablefinanceenquiries@lseg.com using the subject line **[Company name] Green Economy Mark Application**.
4. Once in receipt of the application, we may request additional information or may arrange a consultation call with the company, fund, bank, or advisers.
5. We will aim to provide you with the decision within 28 business days, depending on the complexity.

Only use the latest version of the Green Economy Mark Application Form (“Application”) which can be accessed via the London Stock Exchange’s website. The use of out-of-date forms may cause delays in processing your application. If you require any application assistance, please contact us via email at sustainablefinanceenquiries@lseg.com
